

STONE TRIAL NEARING END**Heated Summing Up Marks Close of Case****Accused Woman Again Faints in Court****Judge to Instruct Jurors This Morning**

(BY A. P. NIGHT WIRE)

NEW YORK, April 5.—The case of Miss Olivia M. P. Stone, graduate nurse, charged with murdering Ellis Guy Kinkaid, Cincinnati lawyer, in Brooklyn last August, will go to the jury tomorrow. Both sides finished heated summing up of their cases late today and Justice Aspinwall told the United States Court jury that he would defer his charge until morning.

Asst. Dist. Atty. Warbase criticizes the defense reference to in-

"If this woman did not know what she was doing, you might as well wipe the law of murder off the statute books."

Questioning for having "called names" during his summation, Mr. Warbase rallied to the defense of James R. Clark, United States Attorney, who had termed a "creaked and monumental liar." He said Mr. Clark was an honorable man and a responsible position in Cincinnati and was above coming to New York to lie.

Atty. Warbase concluded an address which lasted almost three hours by calling upon the jury to convict Miss Stone to "prove that the law on which you can be enforced against women as well as men."

Judging by the past, he said, "I am sure that the twelve men will do what you swore to do when you took your places in the jury box. Judging from the past there is much hope you will convict the woman. But I am hoping that God will give you strength and courage to bring a verdict of guilty, because this case is not only Miss Olivia Stone's—it is the supremacy of American law."

Mr. Warbase dwelt at length on the conduct of Dr. Sylvester R. Lahy, alumnus of the Brooklyn who, after hearing a long hypothetical question, declared it was his belief Miss Stone was sane when she shot Kinkaid.

"No alienist has been here to say she wasn't sane," insisted Mr. Warbase. "Instead, the defense has been at an explosion of the brain. They have done nothing but sound from emotional insanity, a name which Dr. Lahy declared means nothing to him. The only undisputed fact is that she has been offered is that Miss Stone was sane when she shot Kinkaid."

During the afternoon Miss Stone regained some content that concerned her when she lost her mind. At the morning session, as the trial began, she had her second fainting attack. Although quickly revived, she had to be helped downstairs to the detention room.

Mrs. Kinkaid, widow of the slain man, also fainted this afternoon. In the morning, under attack by Mr. R. E. Bell, she had left the courtroom weeping. But she returned when Mr. Warbase began and made the rounds of the afternoon.

For the first time during the trial she appeared in deep mourning, wearing a heavy black veil. She excepted constantly pulled down over her face.

LOSES SECOND SON

(EXCLUSIVE DISPATCH.)
CATHERINE (Ariz.), April 5.—Catherine C. Skeletton has lost death from a fall in the Gold Ore shaft. He was working alone, repairing shaft timbers, and is believed to have lost his balance in reaching a rock ledge which was about a bulkhead forty feet below. The following morning Skeletton's mother arrived in Kingman, only to be turned back to Los Angeles by the ad news. She had lost a son by accident only a short time before.

DEMANDS FAIR PLAY AT GENOA

(Continued from First Page.)

Russian reconstruction that may be feasible.

Proposed schemes for exploitation of Russia, it was explained, would be vigorously opposed by this government. It so regards its relations under the leadership of Hugo Stinnes, which are held here to be measures involving special privilege for Germany, both political and economic.

Russia, Russia to both the United States government and American banking interests is approximately \$310,000,000.

 HOLDING THE BAG

Private banking interests also are holding the bag to the extent of approximately \$35,000,000. The National City Bank of New York extended credits of \$50,000,000 and \$25,000,000 on two separate occasions, while the National City Industrial division granted an additional loan of \$1,500,000. Interest on this amount likewise must be taken into consideration.

In addition, American private companies have large investments in Russia, all of which will be the subject of claims in case the present Russian government gets to a point where it can renege on its obligations to the world on a legitimate basis.

Among these are the International Harvester Company, the Singer Sewing Machine Company and the Armstrong Cork Company. The property these corporations has for the most part been taken over by the soviet authorities and there has been no compensation whatever, moreover to the American interests.

LASKER UNDER FIRE REGARDING SHIPPING**BOARD CHAIRMAN BELIEVES SUBSIDY BILL WILL BRING MERCHANT MARINE**

(BY A. P. NIGHT WIRE)

WASHINGTON, April 5.—Cross-examined continuously for three hours by Democratic members of the House Merchant Marine Committee as to operations of the Shipping Board and details of the administration's plan to build up a merchant marine, Chairman Lasker said yesterday that the bill subsidies will be sufficient to carry half of the foreign commerce of the United States.

A statement by Mr. Lasker that rail and water transportation should be more closely co-ordinated brought forth a remark from Chairman Johnson that he thought a "flexible organization" should be created to bring about co-operation between the Interstate Commerce Commission and the Shipping Board.

Appointment of a group of experts to represent both bodies, Mr. Lasker maintained, subsumed in the merchant marine problem now pending before the House and Senate committees.

THEIR COATS SLASHED**TWO WOMEN REPORT "Jack the Ripper" at Work Again**

"Jack the Ripper," who has for the past several weeks made a practice of slashing the clothing of women while riding on street cars, was busy again last night, Miss Marie Bottimer of 237 West Adams street reported at Central Station that while on a West Jefferson street car a man about 25 years old and wearing a dark suit and a dark cap, with a knife. Then he left the car.

Miss Mae Arnoff of 2718 Malabar street was standing in a crowded Brooklyn avenue car when the ripper slashed her coat. Miss Arnoff did not see the man.

LOSES SECOND SON

(EXCLUSIVE DISPATCH.)

CATHARINE (Ariz.), April 5.—Catherine C. Skeletton has lost death from a fall in the Gold Ore shaft. (BY A. P. NIGHT WIRE)

LANSING (Mich.), April 5.—The high duty of a nation is to itself and its own people and before America can minister to other nations there must be health and prosperity at home. Vice-President Coolidge declared here to reporters in an address before a Republican convention of the present administration, which contract to undermine the Century Consolidated, which is alleged to have been turned over to the selling company as a bonus. The shares were placed on the market at prices fluctuating between \$100 and \$110.

Following the merger of the several companies, according to Coolidge, the stockholders of the Acme Financing Corporation, which is the largest of the original independent companies, have been given a 10 per cent increase in value.

The refusal of the United States to diminish their sovereignty by becoming a part of the Treaty of Versailles and the covenant of the League of Nations, let the Vice-President declare, to determine its own internal policies.

He added that "this has been the greatest problem of the present administration."

There has never been any doubt that this country must recognize its necessary relationship to other nations, he said, "but our own people must be strong before they can strengthen others." The White House has been opened to the people and approach to the President has not been hindered.

Communication between the President and the Congress, he added, has likewise been open, frank and conclusive, he added. These have been no secret negotiations between him and the other members of the administration.

There has been no secret negotiations between him and the other members of the administration.

STATEMENTS MADE

WILL SHIP BODY TO WASHINGTON

Lieut.-Col. Beck to be Buried in Arlington

Statement of Judge Day is Picked to Pieces

Accused Slayer, on Bond, Spends Day at Home

(EXCLUSIVE DISPATCH)

OKLAHOMA CITY, April 15.—The body of the late Lieut.-Col. Paul M. Beck of the aviation police, who was killed early yesterday morning by Judge James P. Day in his latter's home, will be shipped to Washington Saturday morning in a special airplane. This was the announcement of Maj. P. J. Lanphier of Post Field, today. Maj. Lanphier and Capt. Albert Marion of the medical section received today from Justice McWilliams the personal effects of Col. Beck.

Maj. Lanphier said that a board of Air-Service officials of which he is chairman had been appointed to represent the accused before the Coronor's Jury when it convenes Saturday. He made no reference to rumors that the War Department would make an investigation of the tragedy.

STATEMENT ATTACKED
County authorities today picked to pieces bit by bit the signed statement of Judge Day that he found it unsatisfactory from the viewpoint of a defense. What most men have asked is why

SPENDS DAY AT HOME

Judge Day, having been released on bond, spent the day at home. He refused to talk to the press.

His beautiful daughter, Doris, reached home yesterday from Norman, where she is attending the State University. The girl, 20, is talented and aspires to a literary career.

Other officers of the dead airman visited the county morgue and stripped his bloodsoaked uniform of all rank, insignia and decorations. Action was taken upon orders of Maj. Lanphier, it was said.

Mrs. Day was considered one of the most beautiful women in Oklahoma. She is a blonde of striking figure and speaks with the accent of a southerner.

FIND COUNTERFEIT REVENUE STAMPS

FALSE WHISKY LABELS AND PLATES FOR PRINTING ALSO LOCATED

(FT A. F. DAY WIRE)

SAN FRANCISCO, April 15.—Two arrests were made here today and several more to be made to fit internal revenue stamps and whisky labels, with the plates for making them, seized by secret service agents who said they had uncovered an extensive conspiracy to sell "moonshine" whisky hideously liquefied.

Other arrests are expected.

A large amount of liquor has been marketed in Pacific Coast States in this manner, according to Thomas B. Foster, chief of the secret service bureau here. The two men under arrest are Julius Rosenkind, printer, and Ray Raymond, declared by Foster to be a paroled convict. Among the men sought is Rosenkind's employer, who was stated.

A search of Rosenkind's home on information furnished him on application of prohibition agents revealed the stamps and a large amount of alcohol. A key to a safe safe-deposit box was found also, and a light five plates for counterfeiting internal revenue stamps and twelve plates for making labels of high-grade whisky.

Record books at Rosenkind's home made thorough throughout the Pacific Coast, according to the secret service agents.

Raymond was arrested when he appeared at the postoffice building here to furnish bonds for a man arrested on a charge of selling liquor. According to Foster, the liquor was labeled with some of the counterfeit labels alleged to have been turned out by Rosenkind and Raymond.

CORPORATION'S PLEA TO BE HEARD FRIDAY

SAN JOAQUIN LIGHT, POWER OUTFIT WOULD REDEEM, SELL BONDS

(FT A. F. NIGHT WIRE)

SAN FRANCISCO, April 15.—Application of the San Joaquin Light and Power Corporation for permission to redeem an outstanding issue of \$2,500,000 in bonds will be heard by the Railroad Commission Friday, the 7th inst., it was announced today.

The company proposes to call in the bonds at 104 and accrued interest on May 1, with the holder being given the option of exchanging them for the corporation's series C 6 per cent bonds.

Authority is also asked to sell \$2,500,000 series B bonds at 95½ to reimburse its treasury for capital expenditures and to provide for further developments.

ANGELS AND TIGERS TRIUMPH IN OPENING BALL GAMES OF SEASON

Ushering in the 1922 Diamond Season

CHARLEY DEAL ON WAY HERE

Charley Deal, much-delayed third baseman of the Los Angeles club, departed yesterday from Chicago for Los Angeles. It was announced by Business Manager Lockhard. It is regarded as significant that Deal started for Los Angeles soon after William Wrigley's arrival in Chicago, and indicates that all differences were quickly smoothed out. Yesterday, even without the services of Sullivan or Deal, the Angels looked good enough to win a pennant in any minor league, but a player of Deal's class will come in mighty handy.

Star Stanford runners with ease. The time was not as fast as he registered at California, the times being at Pomona, south at 2m. 2.5s. Kenny Hyde, Redlands' pole vault, broke the high vault record for the Baptist institution.

(Continued on Third Page.)

While the Seraphs Were Showing 'Em

In the upper photograph we have Art Griggs out at the plate in the third inning while the bat boy registers great excitement. The two other pictures show two customary features of opening games—one the parade with the flag and the other the luckless batsman trying to avoid being hit by the Mayor.

Oaks Win Over Sacramento in Tenth Inning

BY A. P. NIGHTWIRE

SACRAMENTO, April 6.—With the score tied three up in the tenth inning at Morel Field today Sacramento had a great chance to win out as the bags were crowded and none down. Brenton had gone to the mound in place of Eller, and, with speedy Merlin Kopp on the third sack after the staging of an infield hit, and a weird peg by Marriott, the Oaks purposely walked both Pick and Ryan to get at Mollwitz. Molly hit one at Brenton, who tossed Kopp out at the plate, the relay to first nipping the Senators' first sacker by a step for a double play. With two and one on Sheehan, Col. Pick drove for the plate, and was apparently safe. Bill Umphrey Byrom called the colonel out, amid a storm of protest from fans and players, and a moment later called him clear out of the park.

The ball boys were out of the boot by the time the ball was put across in the first of the eleventh. In the home half, Billy Orr smacked one to the top of the scoreboard for three, with one down. But the Senators could not find the punch. Stange and Peimer went out in cold, and the second game went

REGULARS THERE TO MAN

Rank and File of Bugs and Bugettes on Hand, Braving Blue Noses; Eskimo Pie Taboo

BY ED O'MALLEY

The delayed local opening of the Pacific Coast League baseball season, despite a nipping him from old Boreas, panned out much better, from an attendance viewpoint, than was expected. President Patrick was delighted beyond measure and so were Charley Lockard and Boots Weber. A more unfavorable afternoon, however, could hardly have been picked out, even by malign spirits. The foregatherings of the fans and fanatics began about 12:30 o'clock and lasted until close to 4 o'clock. All honor to the rank and file of the regulars—they were there to man, braving blue noses, chilblains, numb hands, aching backsides, to pay homage to the old backbone. Things would have passed along on the frigid tenor of their way had it not been for some bonehead near first base just before the game began. He yelled lustily for an Eskimo pie, and came within an inch of being garroted.

SUMMERTIME

Then to make matters worse one of the ball boys on the roof munching away at a bag of popcorn, tripped while trying to grab a foul ball, and fell into the snowbank near box No. 1. The flying flakes loomed like a snowstorm to a woman in the front row, bringing

(Continued on Third Page.)

OTE CRANDALL SUBDUES BEAVERS BEFORE SHIVERING BATCH OF FANS

BY HARRY A. WILLIAMS

Killeters Garner Eighteen Hits Off Portland Trio; Cop Pastime by 10 to 5 Score; Lindimore is Big Noise for Seraphs; Nearly 8000 Attend Festival

BY HARRY A. WILLIAMS

Los Angeles did to Portland yesterday what it had intended to do the day before, trouncing her, 10 to 5, in the warmed-over local opening of the Pacific Coast League season. Doc Crandall, the Wadena (Ind.) schoolmaster, was too deep for the visitors, while Leverenz, Blommer and Freeman all looked a good deal alike to the Angels in the cold-weather doings.

Crandall gave the visitors valuable lessons in baseball for seven innings, allowing only two hits, scattered blows by Elliott and Hale. In the eighth he cracked as all pitchers do now and then, and Portland gathered four runs. Jim Morris, the injection of life this round, and like the other pinch-hitter, Hale, responded with a single.

Lincoln Cinder Diggers Show Class in Trial Heats of City Meet

GRAB SPRINTS IN EASY STYLE

Stapler, Norman and Myles Qualify for Finals

Boles Trips and Loses Out in Low Hurdles

Coverley and Thompson First in 440 Heats

BY CHARLES WEST

From the way Lincoln's dazzling outfit of rapid travelers stepped away from 'em yesterday afternoon at Patterson Field, when trial heats for the City League track meet were held, it looks as though the Railsplitters again go to live up to advance notices and copy of the big majority of points in the title doings Saturday. Temmy Davis's men showed their heels to the best talent the other coaches could dig up, performing especially well in the sprints. **Stapler, Norman and Myles**, Lincoln's trio of dusky speedsters, each counted for two first places in the qualifying heats yesterday, proving themselves the best League sprinters up to the worsted in their respective heats in both the 100 and 220, while Pollack of Pasadena grabbed the 440.

Coverley and Harris of Lincoln did the anticipated by winning their heats in the quarter-mile jaunt. Coverley and Thompson had an easy time of it, but were preceded by a scrawny person from Pasadena who answers when called Ciliax.

HARD LUCK

Boles took his heat in the high hurdles without hurrying, but lost his stride in the low sticks and

INTEREST GROWS IN MEET

The San Fernando ninth annual invitational track meet, which takes place Saturday, grows in interest as the big event swings into the closing hours.

Yesterday the wires were busy in the direction of San Fernando, as all schools wanted to make sure that their entries were on file for the official program. More than twenty schools, making up teams aggregating 200 athletes, are in the San Fernando argumentation. This represents the largest suburb contest in recent years.

Among the aces who will participate Saturday are Nash and Kerr of Huntington Beach, Bud Houser of Oxnard—these three men have made the All-American team. Kerr is entered in the 220-yard run and the mile run, and Houser is in the shot and discus events.

Nobis of Harvard Military School, Shaw of Monrovia, Kibbe of Van Nuys, Thomas of Owensmouth and Hershel Smith of San Fernando also are among the sprinters who are out for jewelry.

stumbled all over the straightaway. [M.] second, Wassenberg (O.) third. Tie. By the time he had regained his step Blawett and Honig had passed him and their chipping paces failed to qualify him for the final.

L. A. High and Lincoln took first honors in the relay heats, the Pioneers' time being about two seconds better than the Railsplitters.

Results of the trial heats follow:

First heat: Won by Norman (L.), Adams (M.), second, Deasy (M.) third. Time, 10 2-8s.

Second heat: Won by Stiles (L.) third. Time, 10 2-8s.

Third heat: Won by Pollack (L.) third. Time, 10 2-8s.

Fourth heat: Won by Myles (L.) third. Time, 10 2-8s.

Fifth heat: Won by Ciliax (L.) third. Time, 10 2-8s.

Sixth heat: Won by Deasey (L.) third. Time, 10 2-8s.

Relay heats: Won by L. A. High, Manual second, Lincoln third. Time, 28 1-2s.

Second heat: Won by Lincoln, Pasadena fourth. Time, 28 1-2s.

First three places qualify for finals.

Seals Humble Indians; Even Up the Series

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, April 5.—San Francisco evened the series with Seattle today with an 8-to-8 victory. The Seals got away to a fast start in the first frame, with four runs on two hits, four bases on balls and three errors. The Indians could not catch up, though they did throw a scare into the Seals in the final inning when Gilianwater went wild and let three visiting runs across. Coumbe pulled the game from danger. Agnew smashed a home run in the third with two Seals on base and Lane, of the Indians, scored a Homer the same inning. The score:

"from shirt-sleeves
to shirt-sleeves"

HAVE YOU ever heard it said that the average American family goes from shirt-sleeves to shirt-sleeves in three generations?

You can protect your estate against losses of this character by creating a trust fund for your family.

Placing your estate in the hands of a responsible Trust Company prevents its being thrown away on injudicious investments, and eliminates the danger of favoritism to any particular beneficiary. It also insures permanency of your executor. A Trust Company cannot become ill or move out of the city. It endures forever. Or, placed under the laws of the state it is subject to periodical examination by State Auditors.

Come in to-day and consult our officers about obligation on your part.

**NO BOANS TO
END OFF PAIN**

Stops Hair Coming Out
Thickens, Beautifies.

5 cents buys a bottle of "Danderine" at any drug store. After one application of this delightful tonic you cannot find a particle of dandruff or a falling hair. Besides, every hair shows new life, vigor, brightness, more color and abundance. [Advertisement]

**No More Gas
in Stomach & Bowels**

If you wish to be permanently relieved of gas in the stomach and bowels, take Basilmann's Gas Tablets.

These tablets are prepared distinctly for stomach gas, and for all the bad effects coming from gas pressure.

That empty, gnawing feeling at the pit of your stomach disappears, that anxious, nervous feeling with heart palpitation, nausea and pain will again be able to take a deep breath, often prevented by gas pressing against your lungs.

Your limbs, arms and fingers won't feel cold, and go to sleep because tertianic worms are eliminated.

Gas tablets prevent gas in the bowels, and some of my girl friends believe in them now. You may help other girls, as well as yourself, to get rid of gas.

Get Basilmann's Gas Tablets from The Own Drug Company, or any reliable druggist. J. Basilmann, President, San Francisco. [Advertisement]

TRIBUTE PAID GREAT NEGRO

*Booker T. Washington Statue
Unveiled at Tuskegee*

*Noted Men of Both Races at
Impressive Exercises*

*Former Secretary Daniels
Honors Educator*

[BY A. P. NIGHT WIRE]
TUSKEGEE (Ala.) April 5.—A heroic bronze statue of Booker T. Washington, born in slavery, but who founded Tuskegee Institute, was unveiled here today in the presence of a gathering of white people and negroes from all parts of the country.

Funds for the erection of the statue were contributed by 100,000 negroes, who depict the great educator in the act of pulling away from a crouching, half-concealed black man the veil of ignorance and superstition. Carved on his base are the words: "He lifted the veil of ignorance from his people and pointed the way to progress through education and industry."

GREAT CROWD PRESENT

The unveiling, held in connection with Founder's Day of the Tuskegee Institute, brought together the largest crowd that ever visited the school. Educators and philanthropists came from every part of the country.

Eulgios of the work of Booker T. Washington were delivered by Josephine Daniels, former Secretary of the Navy; Dr. Wallace Buttrick, president of the General Education Board; Dr. George C. Hall of Chicago; Everett Scott of New York; Dr. Robert R. Moton, principal of Tuskegee Institute; William G. Wilcox of New York, chairman of the board of trustees. A letter from President Harding, praising Washington, was read.

"Because Booker T. Washington sought to advance his own race and to preserve friendship with the white neighbors, he is altogether fitting that men of both race, from the North and from the South, should join in this unprecedented event," Daniels said.

NOT LIKE ARITHMETIC

"I am not here to discuss so-called race problems. My experience has taught me that you cannot solve problems in a popular way. One reason we have made less progress is because men insist upon a solution of racial differences by the simple method of demanding that the destinies of men be unfolded in their generation."

"I have no patient solvent for the so-called race problem. I do know that between people and black people in the South there are stronger ties of friendship today than formerly, and that out of this will grow a better understanding and better relationships."

Daniels said Booker T. Washington saw early in life that "one ounce of how to do it well, was worth a pound of theory" and that his school had been based on this knowledge.

The statue is the work of Charles Keck, American sculptor. It is eight feet in height and rests on an eight-foot granite base, the whole work forming a crescent

shape.

**AMERICAN SOLDIER IS
KILLED BY MEXICANS**

**ARTILLERY MAN ATTEMPTING
TO CROSS RIVER SLAIN
BY GUARDS**

[BY A. P. NIGHT WIRE]

EL PASO, April 5.—Mexican river guards, after commanding him to halt, shot and killed Corp. W. W. Whyte of the Eighty-second Field Artillery. Corp. Whyte last night, while he was trying to cross the river on horseback, according to a report made by the commander of the guards today. The soldier's body was found this afternoon on the Mexican side of the river.

The guards reported that the soldier tried to cross the river and fired at him when they had commanded him to halt.

Corp. Whyte's home was in Salt Lake City.

**YOUNG FARMER JUST
WANTED LITTLE CASH**

**HELD FOR OBSERVATION AFTER
SEEKING BANK LOAN
OF \$10,000,000**

[BY A. P. NIGHT WIRE]

NEW YORK, April 5.—People walk into the big banks on lower Manhattan every day and borrow large sums, but when Aubrey L. Carver, a young up-State farmer, tried it today, he landed in the Tombs prison.

Carver, hailing from the little town of Wellsville, went to the Chemical National Bank, approached Samuel Shaw, cashier, and asked for the loan of \$10,000,000.

Shaw told Carver he would call another bank about the loan, and telephoned police headquarters.

Magistrate Andrew C. Conford, continuing the hearing on disorderly conduct charge until Friday, sentenced Carver to the Tombs for observation until that time.

**LLOYD GEORGE WINS
OVER HOUSE MOTION**

[BY CABLES AND ASSOCIATED PRESS]

LONDON, April 5.—Prime Minister Lloyd George scored another overwhelming victory in the House of Commons tonight when a motion introduced by the "die-hards" demanding that the "lack of definite and coherent principle in the policy of the present coalition government" be remedied by the establishment of an "administrative committee composed of men united in political principle" was amended so as to reverse the meaning and heartily endorse the coalition.

As amended the motion was carried with a sweeping majority, ninety-four voting against it and 280 for it.

**MUSCLE SHOALS ROW
IS UP TO CONGRESS**

[BY A. P. NIGHT WIRE]

WASHINGTON, April 5.—President Harding was represented after a conference today with Chairman Kahn of the House Committee on Naval Affairs, in the opinion of which that Congress itself must decide on disposition of the government's properties at Muscle Shoals, Ala., and should not delegate the matter back to the executive branch of the government.

**FINANCIER'S WIFE
ASKS FOR DIVORCE**

**MRS. ROBERT J. DUNHAM
FILES SUIT IN CHICAGO
COURT**

[EXCLUSIVE DISPATCH]

CHICAGO, April 5.—Robert James Dunham, financier, club member and former vice-president of Armour & Co., was named as defendant in a suit for divorce filed in the Superior Court today by Mrs. Edith L. Dunham. According to the bill of divorce, filed yesterday, Dunham on Jan. 10, 1920, after twenty-one years of married life, Dunham, former receiver and chairman of the board of the Kansas City Stock Yards Company, and former president of the Stock Yards Service Company, the Union Stock Yards Company of Omaha, and the Fort Worth Stock Yards Company, now is acting as J. Ogden Armour's personal representative. He is to Arthur S. Co. for the Western Cold Storage Company, which he was treasurer of, as packing firm and was soon elevated to the vice-presidency. Prior to his resignation from Armour & Co. Dunham was a director of the Continental and Commercial National Bank of Chicago, the Stock Yards National Bank of Fort Worth, the Stock Yards National Bank of Omaha and the Chicago, Burlington and Quincy Railroad.

Mrs. Dunham, before her marriage on Dec. 6, 1899, was Miss

WE'RE ALL CLOWNS,"
SAYS MARY L. BAKER

CHICAGO GIRL SAYS SHE
REALLY MEANS TO MARRY
MCCORMICK

[EXCLUSIVE DISPATCH]

CHICAGO, April 5.—"We are all clowns in the dusty arena of everyday life. Fate is our ringmaster," So says Mary Landon Baker, who last January left Alister McCormick and a churchful of prominent guests anxiously waiting until the minister announced there would be no wedding.

"Always audacious" is Mary's motto, and she lives up to it. There are intimations that Alister may be left dangling at the end of a slender rope for some time, although Mary insists she will sail for Europe on April 11, spend a week in Paris and then journey to England, where she will become the bride of Alister. Still, many think she has had her fun.

Meanwhile, Mary is not exactly lonesome or pinning away for lack of company and excitement. Barry Baxter, handsome English actor, who once found it necessary to marry his sweetheart, has come to California, whether she went after the church fiasco to regain her popularity and to renew her

"It's fun to be sensational," said Mary. "I shall keep it up, but what I said about going to England to marry Alister will have to stand." Barry and Mary have denied they were engaged secretly, but they were engaged. Barry said he was already married to another woman.

**NATION'S EMPLOYMENT
CONDITIONS IMPROVED**

**LOS ANGELES, SEATTLE AND
TUCSON ARE AMONG THE
WHITE SPOTS**

[BY A. P. NIGHT WIRE]

WASHINGTON, April 5.—Employment conditions throughout the country continue to improve, according to reports received during the past ten days by the President's conference on unemployment, Arthur Woods, chairman of the emergency commission, announced today.

"The upward trend" Mr. Woods said, "is not yet over, still continues to hold with the number of jobs available, slightly increased, coupled with a corresponding decrease in the number of applicants

Mr. Woods said cities indicating improved employment conditions included Los Angeles, Seattle and Tucson, Ariz.

**YOUNG FARMER JUST
WANTED LITTLE CASH**

**HELD FOR OBSERVATION AFTER
SEEKING BANK LOAN
OF \$10,000,000**

[BY A. P. NIGHT WIRE]

NEW YORK, April 5.—People walk into the big banks on lower Manhattan every day and borrow large sums, but when Aubrey L. Carver, a young up-State farmer, tried it today, he landed in the Tombs prison.

Carver, hailing from the little town of Wellsville, went to the Chemical National Bank, approached Samuel Shaw, cashier, and asked for the loan of \$10,000,000.

Shaw told Carver he would call another bank about the loan, and telephoned police headquarters.

Magistrate Andrew C. Conford, continuing the hearing on disorderly conduct charge until Friday, sentenced Carver to the Tombs for observation until that time.

**LLOYD GEORGE WINS
OVER HOUSE MOTION**

[BY CABLES AND ASSOCIATED PRESS]

LONDON, April 5.—Prime Minister Lloyd George scored another overwhelming victory in the House of Commons tonight when a motion introduced by the "die-hards" demanding that the "lack of definite and coherent principle in the policy of the present coalition government" be remedied by the establishment of an "administrative committee composed of men united in political principle" was amended so as to reverse the meaning and heartily endorse the coalition.

As amended the motion was carried with a sweeping majority, ninety-four voting against it and 280 for it.

**MUSCLE SHOALS ROW
IS UP TO CONGRESS**

[BY A. P. NIGHT WIRE]

WASHINGTON, April 5.—President Harding was represented after a conference today with Chairman Kahn of the House Committee on Naval Affairs, in the opinion of which that Congress itself must decide on disposition of the government's properties at Muscle Shoals, Ala., and should not delegate the matter back to the executive branch of the government.

FEDERAL AID FOR HARBOR

Engineers Promise Help on Silt Disposal

Pledge Made to Director of Flood Control

Government to Spend \$300,000 for Work

(EXCLUSIVE DISPATCH) WASHINGTON, April 5.—Los Angeles will receive substantial and active co-operation of the Federal government in strengthening and perfecting the harbor end of the silt disposal works of the flood control system. Gen. Beach, Gen. Taylor and Col. Pillsbury of the board of engineers of the War Department promised this today to Congressman Osborne, Congressman Linneberger and J. V. Reagan, director of the flood control district of Los Angeles in a conference at the War Department. While the work is to be done by the flood control work undertaken at the same time by the flood control district the United States will willingly aid in this work to an amount of at least \$300,000, and that joint work will insure the silt disposal machinery against any possible breakdown or inefficiency.

AND IS GRATIFYING

This, in view of the severe test of this equipment last year and this spring, is gratifying to the Los Angeles flood director and the Congressman from Southern California.

The conference lasted for some time and the proposed plans for improving the harbor silt disposal were closely studied to show just what the Federal government could do and in the end a promise of liberal co-operation on the part of the engineers' board was made by all the officers present.

Following this conference a telegram was presented to President Harding by Congressman Linneberger and again the President language newspaper here.

Auction Sales

MOVE TO MAKE OATH SACRED

Catholic Bishop Declares Sworn Word in Court Held Too Lightly

(BY A. P. NIGHT WIRE)
BUFFALO (N. Y.) April 5.—Holding that the oath administered in the courts too frequently is regarded merely as a form and its meaning ignored, Bishop William Turner of the Roman Catholic diocese of Buffalo is fostering a campaign by a church organization in defense of the dignity and sacredness of the sworn word. It is planned to extend the movement to every part of the country.

Turner was urged to visit Los Angeles and Southern California this summer. He replied that such a visit depended on the early adjournment of Congress and the return of the President to make the contemplated trip to Alaska.

WOULD VISIT HARBOUR

If the trip to Alaska develops into a long one, he would spend several days in Southern California and will visit the harbor and the vast improvements which have been made to make Southern California a factor in the world's trade.

Mr. Turner, who is accompanied by Mrs. Reagan, is a pioneer railroad engineer with experience in Mexico and the West and has been in Washington for several days working on this plan to secure wider co-operation in the Los Angeles food director and the Congressman from Southern California.

The conference lasted for sometime and the proposed plans for improving the harbor silt disposal were closely studied to show just what the Federal government could do and in the end a promise of liberal co-operation on the part of the engineers' board was made by all the officers present.

Following this conference a telegram was presented to President Harding by Congressman Linneberger and again the President language newspaper here.

MIDDLE WEST NEWS IN BRIEF

(EXCLUSIVE DISPATCH)

DENVER, April 5.—Marital law will be proclaimed by Gov. Shoup without delay in any part of Colorado where an emergency arises during the nation-wide coal strike, according to Adj't.-Gen. Hancock of the Colorado National Guard and head of the State Rangers.

Montauk Tunnel No. 16, west of Edwards Springs, Engineers are assessing what can be done to rebuild or build around it. Full service on the road cannot be resumed for an indefinite time. All shipments will be handled in a roundabout way.

Metal mining operators in the Cripple Creek district were authorized by the Colorado Industrial Commission to effect daily wage reductions amounting to 51 cents.

Steps to stimulate the stone industry in Colorado were announced by the Colorado Manufacturers' and Merchants' Association.

OMAHA, April 5.—"Post the personal property schedule in each township so that the tax-dodger may be driven out into the open," is the suggestion of the tax committee of the Farm Bureau.

The Missouri River is going down. It is withdrawing from its attack on the Burlington Railroad south of Ruota, on the Atchison Trail. At one place it goes within twenty feet of the ties of the railroad and forces to fight its advance were quickly assembled. The rapid recession of the flood, however, saved the day.

WOULD VISIT HARBOUR

If the trip to Alaska develops into a long one, he would spend several days in Southern California and will visit the harbor and the vast improvements which have been made to make Southern California a factor in the world's trade.

Mr. and Mrs. Samuel G. Buckner have presented new paintings to the Buckner collection in the Art Institute as a commemorative picture in honor of the opening of the new building and the signing of the contract with the city for ultimate municipal ownership of the institution.

Concerted effort will be made during the coming summer to attract much larger numbers of tourists to Superior and Upper Wisconsin Highway Association of Superior.

INDIANAPOLIS.

INDIANAPOLIS, April 5.—Judge Coons of Muncie has declared invalid a clause of a city ordinance preventing the operation of jitney buses on streets on which street car and interurban tracks are laid.

Lake Clcott, a small lake of about fifty acres and situated in Marion Township, ten miles west of Logansport, is a popular bathing beach and summer resort, according to the plans of J. E. Edens and Frank Morris, who have a ten-year lease on John Thom, aged 69, one of the most widely-known business men in Central Indiana, is dead at Noblesville.

Values in Indiana decreased a total of \$421,360,000 during the last year, according to statistics prepared by George C. Bryant, Agricultural Statistician for Indiana.

KANSAS CITY.

KANSAS CITY, April 5.—The Lumber Company arranged yesterday for the purchase of 100,000 square feet extending from Wyoming street and Southwest Boulevard to Thirty-first and the Frisco tracks, for approximately \$60,000.

The bread "war" has been called off by the two largest baking companies in the city, the Consumers Bread Company and the Campbell Bakeries. The price of a loaf and the 5-cent loaf is no more.

There were 441 building permits in March with a total value of \$1,037,900, a gain of \$225,100 over March a year ago.

DETROIT.

DETROIT, April 5.—Steps to stem the tide of Michigan investment securities and increased capital into industry and securities where it may be made to provide additional employment, are almost certain to be taken in the near session of the Michigan Legislature.

Heart failure, fear of serious nervous shock may result from unemployment and the affected persons' desire to do less than they are entitled to compensation under an opinion handed down this week by the Michigan Supreme Court.

The University of Michigan is going to make the ninety-acre tract of wooded, hilly land in the northwest section of Ann Arbor, set aside some time ago for an arboretum, one of the show places of the state.

ST. PAUL.

ST. PAUL, April 5.—Emphasizing the great importance of forest protection as protection of lives as well as property, Gov. Frost has issued a proclamation setting the week of April 16 as Forest Protection Week in Minnesota.

Continued dynamiting of trees saved the Conestoga Dam of the Northern States Power Company from being torn off its foundations in the heaviest flow of ice ever recorded in the basin river.

Showing a slight decrease in the number of persons employed in the railway and textile industries in St. Paul, the employment figures for the month of March show a decline of 2.6 per cent as compared with the previous month's showing.

MINNEAPOLIS.

MINNEAPOLIS, April 5.—Operation of the \$4,000,000 plant for concentrating the low-grade magnetite ores in Northern Minnesota

is expected to begin in July.

DETROIT.

DETROIT, April 5.—Steps to stem the tide of Michigan investment securities and increased capital into industry and securities where it may be made to provide additional employment, are almost certain to be taken in the near session of the Michigan Legislature.

While details of the plan were not available, it is understood that he suggested that the poll list of the county of male voters would be taken, and one unregistered person, a blindfolded person, would be drawn. The Sheriff would serve the subpoenas. Under this plan there would be no women on the jury.

RAIL LABOR BOARD

MEMBERS NAMED

(BY A. P. NIGHT WIRE)
WAUKEGAN (Ill.) April 5.—Trial of Gov. Small on the charge of conspiracy was postponed until Thursday morning at the request of his counsel without the consent of the prosecution.

Small had been sentenced to jail for contempt of court. Judge Charles Edwards listened to arguments by the State and then proposed a compromise plan by which the trial could proceed. His proposal for sealing the jury if it is said, is in the nature of a lottery.

While details of the plan were not available, it is understood that he suggested that the poll list of the county of male voters would be taken, and one unregistered person, a blindfolded person, would be drawn. The Sheriff would serve the subpoenas. Under this plan there would be no women on the jury.

AKRON.

AKRON, April 5.—Akron bricklayers and contractors have reached a wage agreement. The bricklayers, who asked \$1.12½ an hour, agreed to a flat scale of \$1.10 an hour.

Purchase of the Springfield Sun by Representative Charles L. Knobell, publisher of the Beast, John H. Berry and J. T. Watters, all of Akron, was announced yesterday. Akron industries are well prepared and can stand the coal strike for two or three months.

"Able-bodied men must either work or suffer," according to a new policy inaugurated by President Franklin D. Roosevelt.

The Missouri River is going down. It is withdrawing from its attack on the Burlington Railroad south of Ruota, on the Atchison Trail.

At one place it goes within twenty feet of the ties of the railroad and forces to fight its advance were quickly assembled.

The rapid recession of the flood, however, saved the day.

(Following is the monthly review of business conditions in Los Angeles, issued by the Public Service Department of the Merchants' National Bank.)

That Los Angeles is not only maintaining her position of economic solidity but is improving it along various lines of business is disclosed by statistics for the month just closed. A slackening in bank clearings and building would not have been surprising in view of the firmness with which two lines for many months. Instead, substantial gains were recorded. Due to these factors, there has been less unemployment in Los Angeles than in most other large cities. Agricultural activities and continued building will, for some time, help the labor situation. Merchants are looking forward to a satisfactory trend of trade through the late winter and summer turn. The better weather will affect the Southern California naturally as the industrial situation as it develops.

People and Their Troubles

DOROTHY DIX TALKS

Funny Woman

BY DOROTHY DIX

Woman began in mystery, for no human being has ever been able to find out why the Creator made her out of Adam's wishbone instead of his backbone.

And she continues a mystery, because every woman is a bunch of contradictory characteristics. At one and the same time she is wise and foolish, generous and mean, credulous and skeptical, loyal and disloyal, tender and hard, an angel and a devil, and nobody knows in advance which she is going to be at any particular moment.

Consider the peculiarities of the feminine temperament:

A woman weeps when she is glad, and she is never so happy as when she is shedding barrels of tears on the second button of the waistcoat of the man she loves. Her woman's idea of spending a hilarious evening is to go to some damp drama where she can sit up in an orchestra chair and sob two hours at a stretch from her handkerchief. One woman who has been married for ten years has the good news that she has taken charge of her husband's pocketbook. She has heard the question to her, and she will burst into tears and begin a regular salt-water geyser, but in the presence of a great grief she is stony-eyed.

The more a woman loves her family, the worse she treats them. In fact, the woman who would gladly die for her husband would change him who makes them wish that they were dead, so that they could be rid of her incessant nagging.

As long as a woman loves a man, she is tyrannical; but it is only when she begins to lose interest in him that she accords him a few human rights.

A woman's ideal of a perfect husband is not a piecemeal handmechanic for her, and tells her every day that she grows younger and more beautiful, and that he admires double chins. If a man wants to marry on her account, he must be mad, and never think it worth while either to wear their good clothes or their company manners at home.

Women are of frailer physique than men, yet many a little wife who doesn't weigh a hundred pounds is more robust than a fat, scared stiff of her. One Sunday afternoon's wrestling with entertaining the children and caring for a teething baby, will wear an average woman out to a frazzle, but a frail little woman stands up under the strain year after year without turning a hair.

Nobody can tell in advance what sort of a wife a girl will make. The poor girl is forced to turn into a spender, the domineering girl to strike and refuse to enter the kitchen, while the rich girl may become a model of thrift and the butterfly girl rolls up sleeves and goes to work without turning a hair.

No man can hope to solve the mystery of a woman, but it pleases his curiosity, and he marries her if she goes to a doctor.

A woman will have a great talent, and spend all her time and thousands of dollars fitting herself for some career, and then give it up to marry a two-by-four man, and spend the balance of her life in poverty and obscurity.

A woman will have a great talent, and spend all her time and thousands of dollars fitting herself for some career, and then give it up to marry a two-by-four man, and spend the balance of her life in poverty and obscurity.

A woman will have a great talent, and spend all her time and thousands of dollars fitting herself for some career, and then give it up to marry a two-by-four man, and spend the balance of her life in poverty and obscurity.

A woman will be an invalid for years, and impoverished by a family with her dead husband and disabled children, and be miraculously cured by her husband's dying, and having the support of her children thrown upon her.

There is nothing in the world that a woman really enjoys as much as a major surgical operation, and the privilege it gives her of talking about it the balance of her life.

Every woman is bored to tears when she has to listen to another woman talk about her children, but she never suspects that a waiting world isn't sitting up goggle-eyed with impatience to hear every detail about her own offspring.

No matter how learned a woman is, nor what success she achieves in her chosen profession, she would rather be complimented on her looks, than on her brains.

A woman who is so frail she cannot walk a mile on the street can walk ten miles in search of a bargain.

Questions Answered

U.S. MAIL
TODAY

Any reader can get the answer to any question by writing the Los Angeles Times Information Bureau, Fredric J. Haskin, Director, 1100 Wilshire Boulevard, D. C. This office applies strictly to consumers. The Bureau does not give advice on legal, medical and financial troubles, nor to underworld subjects. Write your question plainly and briefly. Give full name and address and inclose cents in stamps for return postage. All replies are sent direct to the inquirer.

Question: Is it true that miners have to trade at the company store and that the operators make great profits from running the stores and owning the miners' homes?

Answer: Necessity is an ally, the compelling force in situations where miners trade at company stores, company houses, employ company doctors, etc. Many mining camps are located on company property, and are incorporated towns. The houses—all places in which to live that are convenient to the mines, and all the stores owned by the company.

Q.: Are interested in the bee business and want to sow a lot of mustard. Will the mustard bloom injure the flavor of honey?

A.: It is interesting to note that mustard is listed among the honey-producing plants.

Q.: Does the new immigration law apply to Brazil? P.M.

A.: The 3 per cent immigration law does not apply to South American countries. Such immigrants must, however, meet the other requirements such as the literacy and physical tests.

Q.: How long does it require for a pigeon to sit on her eggs?

A.: The Department of Agriculture says that it requires seventeen days to hatch pigeon eggs.

Q.: Does a fish bite bait by sense of smell or sight? And does it smell with its gills or nose?

A.: Statistics covering many years show that only one person in ten over 21 years has perfect sight. At the age of 40 it is almost impossible to find a man or woman whose sight isn't imperfect.

W. Z.

A.: The Bureau of Fisheries says that fish bite bait both by the sense of smell and the sense of sight. However, the most frequently by the sense of smell, as this is keenly developed. A fish smells through its nose.

Q.: How many adults have perfect sight?

G. S.

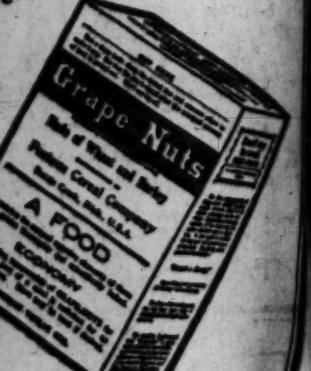

A.: Statistics covering many years show that only one person in ten over 21 years has perfect sight. At the age of 40 it is almost impossible to find a man or woman whose sight isn't imperfect.

I do not state that thoughts cannot be conveyed from a person who has died. I do not say that there is no practical evidence that a dynamo which has ceased to palpitate can generate thought. Thought and electricity seem quite alike, as is the brain and the body, and that it is that it lets us individuals know that it affects and influences that "inexhaustible supply" for good or evil according to the life it lets into earth. I mean to convey the idea that where a man dies, that his spirit again amalgamates with that inexhaustible supply whence comes causation, that it lets us individuals know that it affects and influences that "inexhaustible supply" for good or evil according to the life it lets into earth. I mean to convey the idea that where a man dies, that his spirit again amalgamates with that inexhaustible supply whence comes causation, that it lets us individuals know that it affects and influences that "inexhaustible supply" for good or evil according to the life it lets into earth. I mean to convey the idea that where a man dies, that his spirit again amalgamates with that inexhaustible supply whence comes causation, that it lets us individuals know that it affects and influences that "inexhaustible supply" for good or evil according to the life it lets into earth. serve

COFFEE when you entertain

At the afternoon card party or in the evening when good friends call, there is nothing quite so sure to please—as Coffee. It is a beverage that every one likes.

For there is warmth and good cheer as well as good fellowship in a cup of Coffee.

Moreover, it may be served with equal propriety with the lowliest sandwich or the daintiest sweets. And it is always in good taste!

The phrase, "I-certainly-did-have-a-good-time," has a familiar ring to the hostess who serves—

COFFEE—the universal drink

This advertisement is part of an educational campaign conducted by the leading Coffee merchants of the United States in co-operation with the planters of the State of São Paulo, Brazil, which produces more than half of all the Coffees used in the United States of America.—Joint Coffee Trade Publishers' Committee, 74 Wall Street, New York.

The Final Note of Luxury

A BRAMBACH Baby Grand Piano

In the homes of interesting people one detects a sense of artistic furnishing which needs no label of distinction.

The completing touch in so many of these homes is achieved by the presence of a Brambach Baby Grand Piano that the fact is noteworthy.

The Brambach has a rich, satisfying tone, brilliant but delicate, and its graceful lines are just as exquisite and appealing to the sense of the esthetic.

Though masterfully built and of classic design, the Brambach Baby Grand is priced within the reach of the average American home.

\$685

A paper pattern showing the exact floor space required by the Brambach Baby Grand will be sent upon request.

THE DUMB SINGER

Jean Note, the favorite baritone of Europe and the most famous singer of Belgium, is dead. The song bird is stilled. It is the silent Note.

REAL DOPE

Bandits who robbed a drug store carried off a large quantity of strichnine in the belief that it was dope. It is hoped that they will proceed on that conclusion.

SHERWD BURGLARY

The burglar who always took his wife and baby with him on his marauding expeditions had a rather effective system. His wife could serve as a lookout and he used the baby carriage to conceal and carry off the plunder. If he was challenged by officers he was simply an anxious father who was seeking a doctor for a sick child. It worked all right for a few times, but could not last forever.

PLANT TREES

The golden jubilee of Arbor Day will be pulled off on April 22. The first Arbor Day was a Nebraska institution and was sponsored by J. Sterling Morton, Governor, who had used the slogan, "Plant trees," on all his stationery for many a year. Gov. Morton became Secretary of Agriculture in Cleveland's Cabinet in 1883 and remained a consistent "tree-totaller" until the end. Now every day is Arbor Day in California.

THROUGH THE FOG

In the course of some scattering remarks Senator Rominger said that Gov. Stephens was a kindly, back-slapping politician, but was conducting the State through a dripping fog of soothing syrup. In other words, we are being chloroformed while our money is being taken away from us. The operation is made as painless as possible, but that we are being hamstrung and plundered can no longer be denied.

WEDDING BELLS

Thirty-one marriages to each thousand of population is the record of Orange county last year and it is by far the highest average in the State. The reason is not difficult to disclose. About half the marriages are those of young folks from Los Angeles who fit over to Santa Ana and have the knot tied. They are not regular Orange county matings. The record really belongs to Los Angeles county, which had 11,523 weddings of her own last year. Marrying and giving in marriage is the most constant and persistent occupation of the denizens of the Southland.

WOMEN OF FRANCE

An observing writer comments on the fact that there are no feminists in France. The women there like to be wives and sweethearts, but they do not seem to care a doggone whether they have a vote or not. Although France produced a Joan of Arc the visible supply of militant suffragettes is very low. They exercise all the charms and graces of their sex, but not in the form of office-seeking. They are strong for the boudoir and kitchen, but negligent of the bourse and the hotel de ville. The women of France turn out some swell wives and girlfriends, but they do not run to orators and parliamentarians. Poor old France! There is not even a lady member of the French Assembly.

FALLING DOWN

There seems to be some justifiable doubt as to the authenticity of the messages purporting to have been received from the spirit world since the passing of Dr. Peebles. It was understood that the shade of the good doctor would utilize a code known to only a couple of living friends, but the messages thus far received have been what the outside world call stock stuff. They are the same as might be produced through any workaday medium. The spirit of the venerable citizen is said to have been mingling with old friends in familiar places, but when it comes to the written or spoken word there is quite a slump. The literary output of the spirit world is rather disappointing.

THE RAILWAY KING

Henry Ford's railway is likely to run away from him before the wind-up. The finances showed up well for a while and it was thought that his policy of reducing rates was what was wanted to stimulate traffic and increase profits. But the complete reports of December business as known show a deficit in operating expenses for the month of \$351,000. If the interests on bonded indebtedness be charged as an operating expense the system lost heavily for the whole year. This was no new condition. The road was a loser before. It was merely hoped that in some way the Ford management would turn the scale the other way. The attempts of Ford to make radical freight reductions on certain commodities to or from certain points have also been unfortunate. They have aroused opposition and feeling in other industries and at least favored points. It is hard to show favoritism in the railroad business. If one city or one industry gets a special rate other communities and other lines of business will seek like recognition. Henry Ford can run his own business in the way that pleases him best, but when he handles a public utility he strikes a snag.

SPRING HOUSE-CLEANING IN WASHINGTON

President Harding was not elected to office under any apprehension that he could perform the impossible. He made no rash promises and did not seek support by awakening illusory hopes. And the American people, wearied of Quixotic crusades, welcomed the advent of his administration as a surcease from legislative panaceas for economic and industrial ills.

Comparing the records of the executive and legislative branches of the government during the last twelve months, however, one discovers that the President has done even more than was expected of him; while Congress, especially the lower house, has done less. The farm bloc has served the purpose of the Democratic opposition in obstructing legislation, but it has yet to be proved that it has performed a real service, for the farmers or for any other group.

The President's reluctance to interfere in legislative matters has been in strict conformity with the theory of representative government; but Congress had become so accustomed to looking to the White House for leadership that it has not functioned well when left to its own resources.

At present Congress resembles a string of box cars, without motive force and waiting for an engine to shunt it along. In purely executive matters, however, the President has made substantial progress in clearing away the aftermath of two Democratic administrations and the World War. The treaties negotiated through the medium of the Disarmament Conference will stand in history as a monument commemorating one of the great victories of peace in the history of nations. But the President has now turned his attention to putting the national house in order, something that, while less spectacular than foreign diplomacy, is very necessary to economic and efficient administration of the affairs of the government.

The President has made a beginning in the government printing office, a field in which he is perfectly at home. A printer by trade and a successful publisher, he knows what efficiency in great printing plant means, and he has some concise ideas about how to bring it about.

Waste in governmental departments had become a reproach to good government in the United States. It had come to a point where the average government employee gave no thought to the necessity of giving a day's work for a day's pay. The printing office had drifted under the control of the labor unions, and the employees had become careless and heedless. The condition of the printing plant recalled that of the Aegean stables which Hercules set out to clean.

The President did not act hastily. But when he became convinced that there was gross inefficiency, beginning at the top, he issued a sweeping order which cleared away the debris, and set political tongues wagging in Congress and elsewhere. Most of the men who were dismissed had Democratic friends in the lower house, to whom they appealed for reinstatement, or for revenge. And consideration of important legislation was delayed for two days while the opposition accused the President of pernicious political activity and demanded an investigation.

It does not increase one's respect for Congress to find that many of the members were more concerned about the removal of half a dozen Federal employees than about the problems of reconstruction which the people look to Congress to solve. The President is probably not surprised that he has brought a hornet's nest of angry politicians buzzing about his ears. He knows that one cannot beat the carpet in the Federal departments without raising a cloud of dust. But the President has faith in the country, and knows that those who pay the taxes will appreciate at its true worth what he has set out to accomplish.

Political Washington is disturbed, because the pay-roll patriots are fully aware that what has been started in the government printing office will extend to other departments. There are probably 50,000 employees in the public service who could be dismissed without lessening the efficiency of the government departments. The politicians are fully aware of this fact, and they will try to raise a hue and cry over the renovation of the printing office that will deter the President from further meddling with that vested interest, the pay-roll patriot.

While the country wished more power to the President's mope, those who know something of the inner workings of the government departments are aware that what he has attempted is both a difficult and a hazardous task. Bureaucracy is so firmly established in the government and its roots extend down so far in the political soil that it is not easily displaced. The President is attempting what Franklin K. Lane recommended to President Wilson in his letter of resignation; but the practical nature of the task did not appeal to President Harding's predecessor. He preferred idealizations which affected the country, but not the machinery of government.

Probably there is no other so thankless a task, from a political point of view, as that to which the President has set his hand. The people as a whole do not appreciate its necessity, and the politicians who lose some of the spoils of office never forget and never forgive. A new force, however, is now back of the President. The people of the country are so harassed by taxation that they are beginning to ask each other why the cost of government is so high. If the President can secure better public service at a reduced cost to the taxpayer, the resentment of the little politicians is not likely to do either the president or the Republican party much harm.

PUBLICITY STUFF

In addition to the oratorical efforts of the trained seals of the Governor's private zoo the publicity campaign will be running into radio programs and phonograph records before this thing is over. The talking machine will be giving a jazz band record of "There's a Long, Long Wall." A massive broadcasting station will be set up in the dome of the Capitol whence the flutelike notes of the administration warblers may be wireless over the State. All native sons and sons of guns will be impressed with the beauty and splendor of the Stephens administration. The people will continue to pay the price.

Signs of Spring

JURIES AND NEWSPAPERS

BY BENJAMIN F. BLEEDSOE,

Judge of the United States District Court.

No subject can be of greater

concern to a people than the ad-

ministration of the criminal law

in their midst. Upon this depends

the security of both life and prop-

erty. Criminal trials in the Uni-

ited States, especially those of im-

portance, have long been a sub-

ject of just criticism. Several

years ago, ex-President, now Chief

Justice, Taft, than whom no one

is more competent to sit in dis-

criminating judgment, expressed

the conviction that our adminis-

tration of the criminal law is a na-

tional disgrace. The notoriety at-

tending upon some recent criminal

causes offers justification for a re-

newed consideration of certain

phases of the subject matter.

The system of trial by jury is

intended to be our jur-

isdiction. It is a most salutary

safeguard of the rights of a free

people. Impartial and unani-

mity have ever been its predomi-

nate characteristics. The possi-

bility of the one in any case of

magnitude and the reason for the

other in any case at all, other than

capital, seem seriously to be chal-

lenged. * * *

There is a growing disposition

to bring about the trial of im-

portant cases in the newspapers both

before and while they are being

tried in the regularly constituted

judicial tribunals. In this wise the

asserted guilt or innocence of an

accused, as the same may have ap-

pealed to them, is ruthlessly ex-

plained by newspaper men in their

unceasing effort to crowd their

columns with matter which will

sell their various editions. Even

during the course of a protracted

trial, when modesty would seem to

forbid the assumption of the jury's

prerogative, the boldly announced

opinion of some more or less par-

ticular reporter respecting the true

state of the case is often given

publicity in keeping with the appetite of a horde of readers ever hungry for the sensational.

The result is that no jury in

a case of notoriety can be kept

from the sinister influence of ex-

posed conviction.

If the panel is not fed on re-

iterated opinion, seemingly eman-

ating from disinterested sources,

previouly to being called to the

box, it is confronted with it from

day to day during the progress of

the trial. Jurors are only human.

They are curious as to the var-

ious questions of fact. With no

intention of wrong-doing, but al-

most unconsciously, they will be

led to scrutinize newspaper

accounts of trial happenings.

Not infrequently, too, jurors will

be found who are prone to case

themselves from burdensome re-

sponsibility. They will follow and

act upon announced conclusions

voiced by others standing in an

apparently disinterested attitude.

Through these processes, the

fanciful publication of matters

occurring during the trial,

APRIL 6, 1922.—[PART II.]

MORNING.

PEN POINTS**Belts for Easter**

NEW Spring showing of patent, suede kid; in sports shades and black, brown and white; metal, celluloid and braided effects.

(Main Floor)

Some of the Newest Silks Are in This Special Sale

SALE which makes further postponing of one's Easter and spring wardrobe—in so far as it concerns apparel of silk—entirely unnecessary and unwise:

Sports Silks
white and colors;
and fancy stripes;
widths: 39 and 40 inches
values up to \$6.50,
\$4.95, \$5.95.

Jersey Silks
heavy quality—all silk
gold red and gold

And suit cases; all fitted in shell or white ivory; the sorts priced regularly at \$35 to \$65, will be on special sale Thursday, reduced 25%.

Gingham Specially Priced

NO Spring and Summer wardrobe is ever complete without a proper share of Gingham frocks—this season every woman will want even more of them. The many new patterns and colorings make it possible to have a greater variety. Both imported as well as American made gingham are shown in such colors as lovely yellows, blues, tangerine, Etruscan red and jade.

New McCall Patterns 2366, 2069

You Can Make Pretty Gingham Dresses Quickly

NOW you can turn out in no time a pretty dress that costs next to nothing. No longer need you puzzle over perforated patterns! Now when you use a new McCall Pattern, "it's printed," you can read the directions on the pattern pieces as you lay them on the material. How to cut out and how to sew is seen in an instant so that dress-making is easier than ever before! Even those who have never cut into material can go right ahead and finish a dress (like the one pictured) in a surprisingly short time.

New McCall Patterns 2366 and 2069
"They're printed" are good gingham Styles
(Second Floor)

**The Indispensable Wrap In Cape, Coat or Wrap Styles**

TO fit the Wrap to the occasion is a simple matter, for displays have the spice of variety. A long season's wear ahead is a practical reason for immediate selection. Styles include Swagger Coats of Worumbo cloth and English novelty cloths with vivid color motifs. Capes in every color and fabric known to the fashionable sun, dressy Wraps and dapper little Sports Coats in very gay colors.

(THIRD FLOOR)

Colored Wood Beaded Girdles at Half Price

SHOWN in the newest shades—and ultra-fashionable for adorning sweaters, dresses, coats or wraps. Values from \$1.25 to \$3.50 included at this price—every one an imported girdle, and some of them shown in a display window.

(MAIN FLOOR)

BRUNSWICK PHONOGRAHS AND RECORDS

In the New Hall of Fame
of concert and operatic artists as acclaimed by
American and European critics

The pages of musical history are constantly turning these days. Youth is supplanting age. The concert and operatic stages are embarked upon a new era. Chamlee, Danise, Easton, Pattierra, Huberman, Dux, Godowsky, Strauss, Eddy Ney, Rosen—these are names coming now from the pens of world-critics, both in Europe and America.

To know them is to know the artists of the moment; to be musically well-informed.

All Exclusively Brunswick

Without exception these artists, in common with the present-day trend of artistic acceptance, have chosen Brunswick as the most fitting means to perpetuate their art—a tendency so marked in musical circles that Brunswick now is looked to for the premier recordings of the great artists of the day.

All the records, of all the Artists, of all the world are at the command of Brunswick owners.

NOTICE TO THE PUBLIC

By L. E. BEHYMER, Local Manager

During all the years I have served the music-loving public I have never been privileged to make such an important announcement as this. In contained in these few words, I say, "I want each individual of Southern California into my office, one by one, look into his eye and he into mine, talking this matter over until he feels about it as I do."

Last week I was in San Francisco. I witnessed two operas produced by the Chicago Opera Company. I thought their performances in Los Angeles last year were the last word in grandeur, beauty, magnificence; but now great operas such as the "World War," never known before, is brought to the Pacific Coast this year. The stellar artists themselves all seem to have caught still more of that indomitable spirit which made Mary Garden the supreme genius of opera for all time. But above all else, the conductor, and in my individual, what impressed me most was the marvelous perfection and power of effect as a whole.

The great orchestra of seventy under Maestro Polacco is in a class by itself, probably the most effective accompanying ensemble a great conductor was ever privileged to direct. I agree with Wagner when he said this tribute to him: "The commanding thing, however, is that the same praise in all justice must be given the chorus, the ballet, and particularly the technical staff. Such stage pictures I do not believe have ever been seen in America."

The most expensive, the most complete, the most satisfying productions of grand opera possible to see anywhere in the world will be given in America this year. We, in Los Angeles, should consider earnestly—can you afford not to attend at least three of the seven presentations? I do not think you can, even if the prices were double what they are. Come to the box office without delay.

L. E. Behymer.

TO ATTACK ACT BY RADIODPHONE

Proposed Water and Power Measure to be Grilled

Luther G. Brown Will Speak from Hamburger's

Message Broadcast at Nine o'Clock Tonight

An oratorical attack on the proposed Water and Power Act will be made tonight by Luther G. Brown, an attorney in the radio station according to an announcement made yesterday by W. L. Pollard, who is in charge.

The first effort to use the radiophone for the broadcast of information having to do with political and financial affairs of California will be watched with keen interest by radio experts who predict that within short time this method of reaching the public through the medium of vital nature will be in general use.

It was necessary to get a special permit from Washington to give Mr. Brown sufficient time in which to deliver his message to the thousands of radio fans, who will listen in tonight.

Mr. Pollard telephoned Washington yesterday and permission came back by wire to broadcast the speech at 9 o'clock tonight, using the 500-meter wave length instead of the 560-meter wave length, which is ordinarily used.

TO CARRY MESSAGE WIDE

This extended wave length will carry the message to all parts of California, to Arizona, Nevada and other western points as well as to Catalina Island and to ships along the Pacific Coast.

Mr. Brown's speech is considered of exceptional importance in view of the fact that the Water and Power Commission, to be voted upon by the people of California next November, will be the dominant issue of the fall campaign.

The speech adopted would create a board of five men and provide for the issuance of \$500,000,000 in bonds, backed by the full faith and credit of California. The board would be under control of the people, the legislature and the governor, and would have unlimited powers in spending the enormous amount of money when, where and how it pleased, according to Brown.

"Proposed legislation would, in effect, be a mortgage on every piece and parcel of property in the State as well as upon every security," Mr. Brown added. He has prepared a strong message of warning to California voters.

BEAR VALLEY STATION

From a forest ranger's shack in the picturesque Big Bear Lake region of Southern California comes this personal story of what the wireless radiophone is doing to break down barriers of isolation and create a new equality of opportunity.

"I remember the time," writes J. Cavenaugh to the Kinema Thresher-Brown's Radiophone Station, "when to our hearts it seemed to be out of the world—not a soul to see or hear for weeks at a time. But the long nights are no longer long. Los Angeles, San Francisco, and the rest of the world here in the shack shortly after sundown. They come in so plain that the dog, who used to bark at voices of the night does not bark any more. We know you are coming home as I just stuck my ears at first and then sits blinking at the bulbs and listening."

"Last week I took my set into the mountains and found a place where I could drive an iron pipe in between two huge boulders, got it down about three feet (for a ground connection) and threw a wire over a tree. Just as I expected—in came the signals."

COLLECTOR OF INTERNAL REVENUE

Goodell, speaking before the Wednesday Club at noon yesterday, outlined "What We Expect from the Christian Citizen," saying in part:

"A man's first duty is to his God, his country and his own self is to think. That and that alone is the reason why you and I stand pre-eminent in the animal kingdom."

There never was a man who, pound for pound, was the equal of a dog.

To him it is natural to think.

"You owe it to our country to think and to exercise our right of self-government, our franchise, to the best of our intelligence, and that is all the country can expect of us."

All called attention to the fact that a specialist in any line of endeavor calls in other specialists to do any work for which he is not trained. "You may be in the Y.M.C.A. schools are here training to excel in some one thing; your life will be a success only in so far as you master that one activity and you must lead other things to those trained in them."

MEN MUST THINK

DIRECTIONS FOR OPERATING

After all the parts of the crystal set have been constructed and assembled, the first step is to set the antenna to adjust the "cat-whisker," which rests lightly on the crystal, to a sensitive point. This may be done by merely listening to the receiver while the antenna is being moved.

If the signals are weak or entirely absent, the only method is to set the buzzer in operation.

The "cat-whisker" is then moved about until the loudest response is heard.

After the most sensitive point on the crystal has been found, it will be necessary to tune the circuit to the station from which the messages are desired. The tuning is accomplished by adjusting the inductance or number of turns of the tuner. That is, one or both of the switch arms are rotated until the proper number of turns of wire on the metal frame make part of the antenna and ground. It will be remembered that there are ten turns of wire between each of the first eight switch contacts and only one turn will be made each of two of the other contacts.

The receiving set is best accomplished by setting the right-hand switch arm on contact one and rotating the left-hand switch arm over contact two. If the desired signals are not heard above the right-hand switch arm to contact two and again rotate the left-hand switch arm throughout its range.

Proceed in this manner until the desired signals are heard.

APPROXIMATE COST OF PARTS

Antenna, 100 to 150 ft. about.....\$7.00

Wire, 100 ft. bare or insulated, No. 14.....\$1.00

Switch contacts, porcelain.....\$0.25

Lighting switch—20 ampere battery switch.....\$0.50

Double contact tube.....\$0.10

Antenna wire.....\$0.15

DOG HEARS CALL OVER WIRELESS

Kentucky Terrier Listens to Master Talking in Pittsburg

(EXCLUSIVE DISPATCH)

LEXINGTON (Ky.) April 5.—An Airedale terrier in the radio receiving room of the University of Kentucky Monday night heard his owner at Pittsburg, Pa., call him. The owner, F. Paul Anderson, dean of the university, was speaking from the Westinghouse broadcasting station. The dog was sleeping as Anderson's voice came in. He sprang to his feet, wagged his tail and scampered about the radio outfit.

old KOG (the Kinema station.) The air was filled with the strains of syncopated music from Abe Lyman's Ambassador Hotel orchestra.

MINERS ELATED

The miners of Nevada are elated over the prospects of hearing opera selections, jazz bands and the latest news from the Times' big radiophone station.

Mr. Roy N. Bower, vice-president of El Picacho Mining Company, who arrived here yesterday after the Leo J. Meyers tour of Southern Nevada.

"No modern innovation will do more to humanize the life at isolated mining camps than the radiophone and I am arranging to install one in each camp for El Picacho as soon as possible."

El Picacho is located 120 miles from Las Vegas and is spoken of as Nevada's newest mining camp. It was originally located 10 years ago by E. M. Bowes.

The Coast Radio Company of El Monte, organized by the Cortes brothers, yesterday closed an agreement with the Leo J. Meyers Company for the installation of broadcasting equipment to be installed at El Monte early next month.

"We are in receipt of a letter from Halifax, Can., which is more than twice as large as ours," said Roy N. Bower, vice-president of the company.

"MISS RADIO"
EBELL GUEST

Experts Tell Developments
of Phone Science

Phonographed Voices of
Singers Picked Up

Special Lectures Show
Scientific Work

BY MYRA NYE
"Get off the air!"

"You are on my wave length!"
"What are the wild waves saying?"

These were some of the sayings current yesterday at the Ebell Club luncheon when Miss Radio-Phone made her debut in club circles with Mr. Robert Thistlewhite, head of the science department of the Jefferson High School, and William Bawa of the Radio Supply Company as her special escorts showing the interesting young debutante off to her best advantage the members and guests. No banquet was presented as is usual at debutante parties but a wonderful gift and a memorable one was presented by the club by Mrs. Bawa in behalf of his company—the aerial alrass set up on the clubhouse roof for the demonstration.

"For years to come," said Mrs. Charles Toll, president of the club, "will be told to children and grandchildren of you women who are present today that you first heard a radio phone concert. To these children it will then be as common as telephoning now."

The voice of Caruso, the great tenor, was heard on the other waves transmitted by a broadcasting station on the roof of Hamburgers and John McCormack sang "A Little Love, a Little Kiss," and then somebody from Hamburgers' sent greetings to the club.

DANCES TO IDAHO MUSIC
Mr. Thistlewhite, who explained the demonstration, said that last week down in Anchorage all danced to music played by an orchestra in Boise, Idaho. Soon, he said, that term now fairly familiar to boys in their tenth year, will be heard in the schools, amplifiers, tubes, variometers and vacuum tubes will be as familiar as spark plugs, differentials and inner tubes have become to the many thousands who drive their automobiles. Mr. Thistlewhite said that Edgerton was "listening in" and was probably having all sorts of difficulties "to get the air." The same comment, he said, might have been caught up at the end of the Panama Canal or on the West Coast of China for in those two places similar sets to the ones in the dining room of Ebell were in operation.

The high school instructor sent around the large table, for each guest to examine, a large vacuum tube, exceedingly valuable as one of six that is now west of Denver. It transmits the human voice so that if the tubes are used it increases the volume of sound 6,000,000 times, so that anyone near a receiving set which was "stone deaf" hear if their ears were not destroyed and anyone with normal hearing would be deafened. It was a little tube like this which in appearance differed not greatly from an electric light bulb, but had three protruding beyond the glass, the broadcasted President Harding's speech on Armistice Day. It is this tube that picks up messages from ships, the fog and can blind down airports and to a landing place through clouds and can pick up the minutest particle of energy.

Edgerton's idea upon which he was so diligently working a month ago to communicate with departed souls is ever perfected. It will be by the use of one of these marvelous vacuum tubes which are hard to get. The tubes down to all, and very soon, said Mr. Thistlewhite, will be quite generally operated with less difficulty than the shifting of gears on an automobile.

"The era of 'radio that will pass'" said Mr. Thistlewhite. "The potentialities are astounding. It has come to stay and in twelve months it will be a necessity." The government has said already that no state or corporation can do what it will be possible for any Senator to make heard his address in any one of the States or in Alaska at the cost of 3¢ per person.

LAWS TO GOVERN WAVES
Mr. Bawa said that at the present time Congress is considering the wireless bill which will regulate the band of wave lengths so that amateurs will be governed by the 200-meter wave length, com-

Efficient Housekeeping

BY LAURE A. KIRKMAN

Roast Loin of Veal for Dinner

A reader friend has written to ask me to publish a dinner menu with roast loin of veal as the meat dish. I think she will find the following delicious:

Corn Chowder, roast loin of veal, mashed potatoes, onions, lettuce, French dressing, coffee, lemon pudding.

Corn Chowder: Fry 1 medium-sized onion and 2 tablespoons of butter until yellow, then add 3 cups of sliced raw corn, 1 cup of salt; cover and let boil until the potato slices are soft, then add 1 can of corn, 1 quart of milk and 1 cracker rolled fine; boil a few minutes long, add butter and salt and the stiffening of the whites of eggs. Serve very cold.

Roast Loin of Veal: Wash the loin and rub it thoroughly with salt and pepper. Take out the kidney, roll up the meat and let stand in the refrigerator for an hour. In the meantime make a stuffing of bread crumbs seasoned to taste with salt, pepper and sage; moisten this with a little hot water and add to the whites of eggs. Now unroll the vein, put the skin with cotton string. Put this little slice of fat pork on top of the roast, wrap the meat in the driving man with the thick side down and bake in a rather hot oven. In a half-hour add a little water. In another half-hour turn the roast over and when nearly done, baste lightly with flour and baste with melted butter. Before serving, remove the twine. A four-

merced houses by the \$50 to \$10 meter wave length bands. These than 200 miles; universities by the 1500-meter and the government all above 1500-meter while most stations would be in the 1000-meter wave length bands. These barks said. Mr. Bawa would undoubtedly pass by July 1.

He told of The Times broadcasting which was soon to be established, "in other words, when you can read your morning news without setting the paper at all. It will save your eyesight."

Amateurs travel from wave crest to wave crest and Mr. Thistlewhite and the curmudgeons that often carry the sound through the ether are of various wave lengths. The difference in these lengths makes it possible for a single receiver to receive signals from both ends of the ocean simultaneously.

Those who will take part are Myrtle Kaiven, coloratura soprano; Mrs. Leland Moore, musically-illustrated reading; Pauline Dreisike, lyric soprano; Mildred Singer, house piano; Jeanette Rogers, flute; and Mrs. Harry Minor, reader.

For vice-president. The latter will preside at the session Saturday.

Big Sisters' League

Mr. Harriet W. Works, president of the Big Sister League, will present for discussion at the meeting of the League to be held Thursday at 2 p.m. at the Training Home, 3118 Trinity street, tentative plans for the new home.

This home which is for homeless mothers with their children and will be erected a lot recently purchased at Edendale.

Annually the Matinee Musical Club will furnish the program which has been arranged by Mrs. Ruth Gomey, chairman of the altars section.

Those who will take part are Myrtle Kaiven, coloratura soprano; Mrs. Leland Moore, musically-illustrated reading; Pauline Dreisike, lyric soprano; Mildred Singer, house piano; Jeanette Rogers, flute; and Mrs. Harry Minor, reader.

At Horse Show Ball

Numerous parties are to be given Saturday evening at the horse show grounds and hotel at the Hotel Maryland, Pasadena. The plan is to be a fitting climax of the three days' horse show at Flintridge.

Miss Anna C. Parsons is to have a group dining with her, among whom will be Mr. and Mrs. George F. Fisher, Mr. and Mrs. James R. Pitcher, Jr., Mr. and Mrs. E. Dixon, Mr. and Mrs. Nelson Howard, Mr. and Mrs. C. Partridge, and Mr. R. Hindleigh.

Returning to Paris

Mrs. Chester Weeks and her daughter, Mrs. Robert Crombie, who have resided in Hollywood since the war, left early in the summer for Paris. Mrs. Weeks is a graduate of the famous Fairbanks and she and her daughter made many friends during their stay here.

Mrs. Bixby to Return in June

Friends of Mrs. Johanna Bixby, Jr., who has been in New York since early autumn, will be pleased to hear she will return in June, accompanied by her young daughter, Miss Beatrice Bixby, who has been attending a fashionable girls' school in Paris.

Mrs. Bixby and her sister, Mrs. Kingore Saeter, passed the winter with their brother, Grant Kinross and have met scores of prominent New York folk at the elegant studio parties, one having been a fancy dress Russian supper dance.

Women's Legislative Council

To discuss proposed legislation affecting women and children, the executive board of the Women's Club, who is a guest in Los Angeles, spoke briefly and said it was asked what impressed her most about California. Last night at the high school building and the work they are doing. Mrs. Gouverneur, who spoke at the convention in Miami last week, on women's rights, was found to have attended the clubs of Hollywood; the Chizmar Club and the Woman's Club of Hollywood to bring measures to bear until the five motions of the bill are passed.

When the bill is introduced,

the bill will be referred to the Senate Committee on Education.

Mr. A. J. Lawton, past president of the organization, announces that it is quite certain that one of these bills will be the Community Property Bill which was referred back to the Senate at the last session. A committee of three women members of the legislature will be selected by the council for its endorsement.

will take hard campaigning to put
the bond issue up.

City Engineer Griffin said that if
a treatment method of disposal
was placed before the voters at
an initial smaller cost than an
outfall sewer, the voters would be
informed that further bond issues
would be required to build additional
treatment plant units so
that the final cost would be \$65,-
000,000, or \$1,500,000 more than
the \$12,500,000 required for
a new outfall sewer to take care
of the city's needs up to the same
year.

A new outfall sewer, if approved
by the voters, would require three
years to construct, and in the
meantime the city is faced with the
problem of providing emergency
means to handle the sewage
during that period. Some of the
proposed methods were discussed
at yesterday's conference. Under
the terms of Superior Judge Wood's
decision enjoining the city from
digging a drainage into Bellwood
Creek after May 29, the city is
compelled to provide means of
handling the present excess flow
from the main outfall sewer before
that time.

URGES FORCE PUMPS

Mayor Cryer said that he was
impressed by the suggestion of
Los Angeles Chapter of the
American Association of City En-
gineers of installing force suction
pumps into the main outfall to ac-
celerate the flow and thus increase
the capacity of the sewer. Pres-
ident Ralph Reed and F. G.
Desserry of the engineers' organiza-
tion were present, and said that
while that society believed that the
city's problem was not that of a
new outfall sewer, if that force pump
were installed in the sewer system,
at an approximate cost of \$200,000,
and maintained in perfect working
condition, the capacity of the
sewer could be increased sufficiently
to handle the city's sewage for
the next twelve months, which
would give time to construct other
additions to the sewer system.

TIME POSTPONED

Other aid he intended to offer
was an agreement from the
Board of Public Works to postpone
the \$17,500,000 bond
until August 22. State-
so-called primaries
If the school
is a special election
voted on sewer bonds.

**Girl Gymnasts
to Contest for
"Times" Trophy**

Teams of girl gymnasts from
local high schools will compete this
afternoon at 3 p.m. at the Athletic
Club in the second annual contest
at which a large trophy presented
by The Times is the prize.

Thirty-two girls, selected from
the gymnasium classes, will represent
the schools. The winners will
go through their drills in competi-
tion, the winning group to ob-
tain possession of the trophy. Hol-
lywood High School girls by virtue
of their victory last year, now
hold the trophy.

ALL SEEKING JOBS

Five Hundred Applicants Want
Places in Local Postoffice

Secretary Tyran of the Federal
Civil Service Commission, yester-
day announced the largest list of
vacancies for positions in the
local postoffice established in the
history of the service.

There are more than 500 applica-
tions, and the examinations will
begin Saturday, two classes a day,
with fifty applicants in each class. It
is expected that the test will con-
tinue almost a week.

But few changes are now being
made in the force of postoffice em-
ployees, the reorganization of a few
not being in evidence. "The better
jobs on the outside are not
as numerous as they were."

HURT IN CAR CRASH

Woman Hurled to Pavement as
Machine Skids

Mrs. Concepcion Salazar, 26
years of age, 1425 Mainland avenue
was hurled to the pavement and
suffered possibly fatal injuries yes-
terday when an automobile driven
by her husband, Gabriel Salazar,
collided with a Los Angeles Rail-
way car at Twelfth street and
Broadway.

The husband escaped with minor
cuts and bruises. He said he had
been driving a stock car machine
as it skidded on the wet pavement.
Police Surgeon Saverien treated
Mrs. Salazar for a fracture of the
pelvis. He said she suffered se-
vere internal injuries.

**WRITER OF SCENARIO
SUES FILM MAKERS**

Declaring that the film play
"Fresh from the Farm," is a dupli-
cation of the scenario, "Too Much
Mixing," which she submitted to
July 1920, Mrs. Weaver Haden
demands \$1500 damages from
Christie Company and Frank Rollin
Conklin in a suit filed yesterday.
The complaint states that the de-
fendant's play was a duplication
of her scenario.

PROPERTY SETTLEMENT

Accused of defrauding the Farmers'
and Merchants' Bank of Long
Beach out of 400 barrels of flour,
theodore Von Louw, of a banking
company in Long Beach, was committed
on an instructed verdict Tuesday
by a jury in Judge Sheneh's court.
The court held that because of
technical reasons relating to wa-
rements, the defendant could not
be held guilty. The case was
dismissed.

FIND FOR BANKER

Accused of defrauding the Farmers'
and Merchants' Bank of Long
Beach out of 400 barrels of flour,
theodore Von Louw, of a banking
company in Long Beach, was committed
on an instructed verdict Tuesday
by a jury in Judge Sheneh's court.
The court held that because of
technical reasons relating to wa-
rements, the defendant could not
be held guilty. The case was
dismissed.

ARCADIA BANK BANDITS TAKEN

(Continued from First Page.)

ars as the bandits who robbed the
bank. All of the employees of
the bank were certain, they told
the arresting officers, of their identifications.

According to Supt. Manning, the
four bandits were driving through
Coyote Pass toward Los Angeles
when first seen. The driver of the
automobile refused to stop the
machine until Driver Hobrook of the
Sheriff's office, placed his automobile
across the narrow road.

BANDIT OVERPOWERED

Once the bandits stopped, then
attempted to draw a weapon, but
was overpowered by Deputy Sheriff
Bright and disarmed. The other three made no attempt to resist
arrest.

The authorities learned from
Mr. Dunham, the president of the
bank, that the bandits entered the
establishment at just 12:56 p.m.
One remained in the doorway and the
other three with their weapons
in their hands walked into the
banker's cage. Mr. Dunham was
ordered to unlock the door leading
behind the counters. Instead of
opening the door, the banker, who
was an aged man, locked the
door from the inside.

"Shoot him Juan," cried one of
the bandits. Before Hatterscheid,
who was himself covered with a
revolver, was able to call out one
of the bandits pointed his revolver
at Mr. Dunham and pulled the
trigger. The weapon failed to ex-
plode.

ADmits BANDITS

"Don't shoot him boys, we will
open the door for you," shouted
Mr. Hatterscheid. Mr. Dunham
opened the door and allowed the
bandits to enter. Dunham, Hatterscheid
and Stever, who were the
only persons in the establish-
ment, were then forced to the floor
by the robbers and told to keep
out of sight.

While clearing the money from
the bank drawers and till the
bandit leader saw Miss Mont-
gomery and Desserry coming across
the street. He ordered his com-
panions to hide behind the counter
and as soon as the two had
entered the bank, the bandits armed
with revolvers and forced them
down beside the other three vic-
tims.

**Twenty Carloads of
UPHOLSTERED
FURNITURE**

Direct from the Karpen Factory

In this fine furniture has been achieved quality on a

production basis. No better furniture of its kind is

found anywhere, yet with the aid of modern ma-
chinery it is turned out at prices within reach of the

average home. We cooperate with the manufacturer

by (1) buying in quantities; (2) selling under low
overhead expense at prices that compel quick turn-
over; (3) concentrating our advertising effort on

this one line.

Naturally, under these conditions, we are able to

offer better values than would otherwise be the
case. We invoke the Power of Advertising to tell
you about it—so that you may come and see for
yourself by means of actual comparison how these

things work to your advantage in the way of (1)
quality; (2) assortment; (3) lower prices.

Not to see what we have to offer is to rob yourself of

an opportunity to select from the largest and best
assortment at prices that afford a saving in cash
well worth earnest consideration. Coming to look

incurs no obligation to buy.

HAVE COLOR IN CHEEKS

Be Better Looking—Take
Olive Tablets

If your skin is yellow-com-
plexion, pale—tongue coated—ap-
petite poor—you have a bad taste
in your mouth—lazy, no-good
feeling—you should take Olive
Tablets.

Dr. Edwards' Olive Tablets — a
substitute for calomel—were pre-
pared by Dr. Edwards after 17 years
of study.

Dr. Edwards' Olive Tablets are a
purely vegetable compound mixed
with olive oil. You will know
them by their olive color.

To have a clear, pink skin, bright
eyes, no pimples, a feeling of
buoyancy like childhood days you
must get at the cause.

Dr. Edwards' Olive Tablets act
on the liver and bowels like cal-
omel—yet have no dangerous after
effects.

They start the bile and overcome
constipation. Take one or two
nightly and note the pleasing re-
sults. Millions of boxes are sold
annually at 15c and 30c.—[Ad-
vertisement.]

Probation Ask by Man Who Mar-
ried Too Soon

Judge Sheneh

Walrath Grunes Oliver told
Judge Sheneh yesterday that he
and a friend had just obtained an
interlocutory decree of divorce in
Idaho and that they thought it
all right to marry before the
decree became final. Oliver pleaded
guilty to bigamy. He admitted
marrying V. Olive Combs on Sep-
tember 24 last, while still the
husband of Betha L. Oliver of this
city. He applied for probation and
will be given a hearing on the
21st inst.

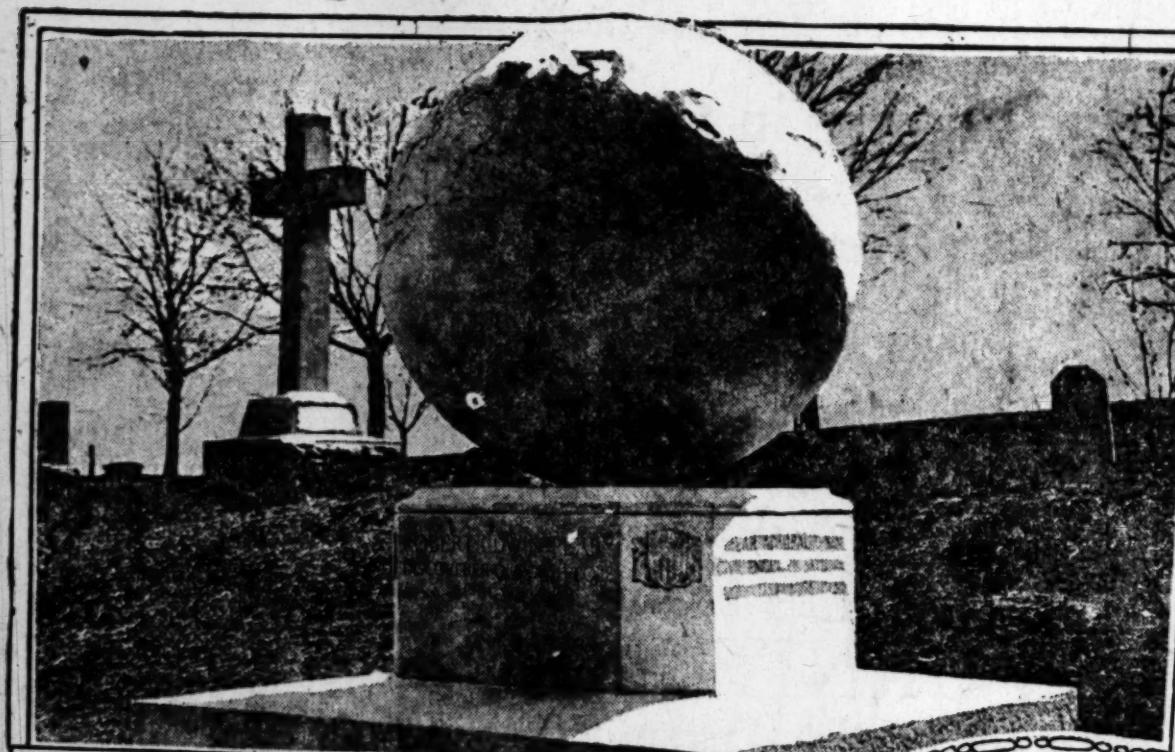

She also asserted that he had
asked her to waive certain formalities
relating to his complaint in order
that he might speedily obtain a
divorce. At a recent reading of the
document, however, she discovered
that Mr. Sheneh had full knowledge
of his wife's intention to press the
divorce complaint and that he had
apparently permitted the case to go by default.

She also asserted that he had
contradicted himself so many times," said the witness.
The brother said that he had left
his business in Toledo to escape
the law.

Sheneh, of Los Angeles, fought
the suit brought by his wife.
He said that her health was such
that she cannot travel alone. Trial
of the case was advanced on the
court calendar because of the im-
paired health of Mrs. Shore and her
desire to return to Canada immedi-
ately in order to be with her
adult daughter, Kathleen, 7
years old.

TESTED WILL MADE.

MEN, WOMEN AND THINGS IN THE WORLD'S NEWS

A memorial to the late Rear Admiral Robert E. Peary, fashioned from a design of his own suggestion, will be unveiled at Washington today, the thirteenth anniversary of the discovery of the North Pole, under the auspices of the National Geographic Society. President Harding and other high officials will take part.

Mrs. Edward Stafford, daughter of Rear Admiral Peary, who will unveil the memorial. She was known as the "Snow Baby," being born the farthest North of any white child.

"PRINCE AND PAUPER"

TWAIN'S STORY TO BE JACKIE COOGAN'S NEXT

By Grace Kingsley
If nobody double-crosses him, little Jackie Coogan is going to bloom forth on the screen as the two little heroes of Mark Twain's "The Prince and the Pauper." Next week, at least, he may, and it is expected that the purchase of the film rights to the story will be completed shortly.

The producers who preside over the professional fate of Jackie are beginning to feel nervous, for they have a mine in the child. At present he is appearing in Dickens's "Oliver Twist," surrounded by an all-star cast and with Frank Lloyd directing. It would seem that they do not intend to waste Jackie in any more poor stories.

"The Prince and the Pauper" has entertained millions both as a book and as a play, and it wasaturized by Family Playhouse about six years ago with Marguerite Clark in the leading role. At that time the playing of double roles in films was a novelty, and probably was the reason for the success of "Prince and the Pauper," which has been responsible for the flood of double-role heroes and heroines, who have appeared on the screen since that time.

Frank Lloyd Announces
Just as soon as Frank Lloyd collects a sufficient number of stories which he considers worth while for staging, he will start work for himself. In other words, he is going to make his own productions, according to an idea long cherished by him.

Pat Rooney's Backfire.
Pat Rooney, Orpheum star, tells this one about an Irishman he was talking to down at a seaside resort one day recently. The Irishman was praising the town until Pat got around to "Please, if you have a right, returned Rooney, "but what the h—l would you have if you took the ocean away?"

Holubar Shanghai Chinese Actor
When Allen Holubar completes "Hurricane's Gal," he is to start working at once on his second new story. This story is a French story, adapted from a popular French novel published some four or five years ago, and which has been translated into English. He isn't yet ready to announce the title.

Dorothy Phillips will be starred and practically an all-star cast will be featured. The locale of the story is the French provinces.

And speaking of "Hurricane's Gal," which is nearly finished, there's a Chinese actor in it whom Holubar expects to perform that native feat, coveted by all players, and known as "knocking them cold."

This Chinese actor, whose name is Willie Fong, was discovered in San Francisco, and had not thought in all his life of becoming an actor. In fact, he was a peanut vendor at the time he was torn from his high-power career taken out of trade and thrust into the refined air of show. And so far from wanting to become an actor, Fong distinctly voices his aversion to such a career.

"I saw him at the corner of Main and Market streets," said Holubar. "After I had been on a search for several days for a Chinese actor to play an important character in my picture. Fong was sitting peacefully beside his cart, never knowing what fate had in store for him."

I went over to him, asked him if he wanted to work in pictures, and he looked suspiciously at me in the oriental way. He no savored at all.

"Then when he got through his head what it was I wanted, he said: 'No Me fine. No me wants be actor.'

He had finally to go down to Chief of Police O'Brien and get him to threaten Fong with being put into the cooler if he didn't promise to become an actor before I could get him.

But now he's very happy, and I suppose he'll never be happy again unless he remains in pictures."

Conway Tearle is Sued.
Poor Conway Tearle is in hot water. From New York comes word that the popular Slim Idol is being sued for \$1,000 damages and \$200 in doctors' bills as the result of his bull terrier having mauled and bitten the 4-year-old son of Max Weisberg, a woolen manufacturer.

The alleged attack occurred at the country home of Tearle, which adjoins that of Weisberg in Chatsqua, N. Y. The child, it is claimed, ran into Tearle's yard to get a bit of candy and the dog jumped on him, tearing the youngster's scalp.

Edwards in Jerusalem.
It looks as though it is going to be some time before J. Gordon Edwards, Fox director, again sees the light of day. Edwards, who is in charge of the studio calling for strength, Bruce Gordon has engaged as leading man for Ruth Roland in the Pathé serial, "The Riddle of the Range." Beside his strong-man qualifications, he is really a very fine actor.

"How do you play a role in a serial, anyhow?" asked an interviewer the other day.

"Why," responded Gordon, "you're an actor by main strength."

MAE MURRAY in "PEACOCK ALLEY"
MAE MURRAY is appearing in "Peacock Alley," a comedy with dogs with everything but talk. Promising the greatest mind-reading America—it will startle, astound, and mystify. Four times daily—COME AND BE CONVINCED.

Conway Tearle is Sued.

Poor Conway Tearle is in hot water. From New York comes word that the popular Slim Idol is being sued for \$1,000 damages and \$200 in doctors' bills as the result of his bull terrier having mauled and bitten the 4-year-old son of Max Weisberg, a woolen manufacturer.

The alleged attack occurred at the country home of Tearle, which adjoins that of Weisberg in Chatsqua, N. Y. The child, it is claimed, ran into Tearle's yard to get a bit of candy and the dog jumped on him, tearing the youngster's scalp.

Edwards in Jerusalem.

It looks as though it is going to be some time before J. Gordon Edwards, Fox director, again sees the light of day.

A cable dispatch from Jerusalem announces the arrival of an American motion-picture expedition to prepare for the filming of a huge epic drama on the Old Testament story of Israel.

The expedition was sent out by the Fox Film Corporation, and is in charge of Abraham Carlos and J. Gordon Edwards. Edwards recently completed shooting a production titled "Road Home," based on the life of the Emperor Nero.

Rex Gordon in It.

Having seen service during the World War, and having since kept in training by playing in westerns, Rex Gordon is in demand for strength. Bruce Gordon has engaged as leading man for Ruth Roland in the Pathé serial, "The Riddle of the Range." Beside his strong-man qualifications, he is really a very fine actor.

"How do you play a role in a serial, anyhow?" asked an interviewer the other day.

"Why," responded Gordon, "you're an actor by main strength."

MAJESTIC CROWDED

"Smilin' Through," Jane Cowell's great New York triumph, is playing to capacity houses in the second week of its run, and is setting a record run at the Majestic Theater.

This fantastic comedy from the pen of Allan Langdon Martin is one of the greatest successes of local critics, while Edward Everett Horton is seen in a part which calls for a wide range of acting. The remainder of the cast is well chosen and the stage setting, an old English garden, is beautiful in the extreme.

SEES FAST AIR ROUTE TO EAST**Editor Predicts Passenger Service in Three Years****Nation's Business Reviewed in Chamber Address****City as Capital of Great Southwest Praised**

A forty-eight-hour freight and passenger airship service between Los Angeles and New York City within the next three years was predicted yesterday by Merle Thorpe, editor of the Nation's Business, in his address at the Chamber of Commerce luncheon at the Aladdin Inn.

He also predicted that through the radio "every family in the United States will be able to sit in its living-room and hear the President's inaugural address three years from now."

Mr. Thorpe based his predictions upon the progress of business in this country and the world situation in confidence. He was on the topic, "Business is Business," selected for him by Maynard McFie, president of the meeting. In connection with Mr. Thorpe's talk on business, Capt. John D. Fredericks, president of the chamber, called attention to the importance of the Chamber of Commerce executive committee in the new west through the San Joaquin Valley. He urged all members of the chamber to make the trip.

CONFIDENCE PRIME FACTOR

Mr. Thorpe declared Los Angeles was destined to become "the great capital of the Southwest, bounded on the north by the San Joaquin Valley, which extends from Pasco, Mexico on the south and \$60,000,000 potential customers to the west." It was the speaker who originated the business name of the country on which Los Angeles was placed as "the white spot" and he gave this city much credit for its commercial, industrial and financial progress of the past decade.

Discussing the part business should play in the country's welfare he said:

"This is an economic age. Ninety per cent of the White House calendar today reveals the business questions, each affecting the Los Angeles business man."

He declared lack of confidence in business—confidence in countries, nations—has more to do with the present business slump than anything else. Before you call your group blood-thirsty profiteers, consider the facts. Fifteen thousand of him failed last year.

"Advice from business men in this country will not be received at full value until the voters back of the politicians and managers of managerial brains can honestly make more than \$10 a day, that big business success is not necessarily shown that business is not in a state with common and unrighteousness," he continued.

CHAMBER CREDITED

The intelligent popular opinion will not be hastened by business communities impugning dishonest and selfish motives to other business communities, not by tanners accrediting canners, not by wholesalers crediting those accepting re-tailers.

"Some day," he added, "the American business man will think of himself as 'an American man.'

Even in the courts.

When Miguel Mangues was arraigned in the Superior Court of Imperial county on the charge of murdering Quon Sue, a Chinese, he pleaded guilty. Later on, testimony was taken as to the crime, and the court fixed the murder as in the 1st degree, and assessed the death penalty.

Then the Mexican, thinking that possibly he had spoken hastily, asked that he be allowed to change his plea. He made up his mind that he would not accept the death penalty had opened his eyes. But the State Supreme Court, in an opinion handed down yesterday, found that he had spoken too

soon in his statement.

There is a time for everything.

Legal
Notice of Redemption to holders of Victory Notes and others concerned:
Notice is hereby given as follows:

1—Call for redemption of 8% Victory Notes. All of these 8% series of United States of America Convertible Gold Notes of 1921—1922—1923—1924—Victory Notes are hereby called for redemption on June 15, 1922, pursuant to the provision for redemption contained in the note circular No. 188, dated April 21, 1919, under which the notes were originally issued. Interest on the Victory Notes of the 8% series will be paid until redemption date, June 15, 1922.

2—Suspension and termination of Victory Note Conversion Privileges. The view of the Treasury Department is that all 8% Victory Notes on June 15, 1922, and pursuant to the provisions of the note circular No. 188, dated April 21, 1919, under which the notes were originally issued. Interest on the Victory Notes of the other series is hereby suspended from February 1, 1922, to June 15, 1922, inclusive, and on June 15, 1922, will terminate. Victory Notes accordingly cease to be convertible effective June 15, 1922, and on and after that date no conversion of the notes may be made.

3—Detailed information as to the conversion of the 8% Victory Notes for redemption is given in Treasury Department circular No. 271, dated February 1, 1922, copies of which are available at the Treasury and the Federal Reserve Banks.

A. W. MELLON,
Secretary of the Treasury.

**ASSOCIATED OIL
FEATURES MARKET**

Acting under the stimulus of a favorable earnings statement Associated Oil shot up four points on the Los Angeles Stock Exchange yesterday to a firm close at 111. The annual statement, issued Tuesday, showed net earnings of \$20,500,000 which compared to the present dividend rate of 8% it encouraged the traders in their expectations of a larger distribution at the next dividend meeting June 7. Total American was stronger advancing 1.10%, while National Petroleum fell off 1% to 83%. Union of Delaware was active, but unchanged at 18 1/2.

United Eastern was again the center of trade on the mining list. Assured that the present dividend rate would be maintained caused the demand for this stock to pick up and the price advanced into the highest point of its fluctuations, but closed weak at 26 1/2, a net gain, however, of 1/4 cent. Many sales forced United American down 2 cents to 23.

Other oil stocks in circulation and sales as posted yesterday in the Stock Exchange Building:

WANTED—HELP—Male.

WANTED—MURKIN & READE
Leasing Representatives
110 E. Second St.

WANTED—HELP—Male.
Salesmen and Solicitors

WANTED—SALESMEN.
We require several men of sales ability for permanent and a few for County and Southern California.

The opportunity to secure a sales manager position by your production is excellent.

No stock, real estate or insurance to sell.

Our sales managers are instructed to evaluate with their salesmen at all times.

We offer to man qualify a contract which will be of financial interest to them.

Address M, box 306, TIMES BRANCH.

WANTED—AUTOMOBILE MEN.

If you are really interested in a smooth training plan, visit our office or write for FREE BOOKLET "How to Sell Cars," a practical manual on all branches of selling cars.

Send us your name and address and we will send you a copy of our book as soon as possible.

Apply to our office under "S. L. COOPER," 101 W. 1st Street, Los Angeles.
